GODIF Newsletter August to November 2026

Thank you for committing to the GODIF trial!

Dear friends and colleagues,

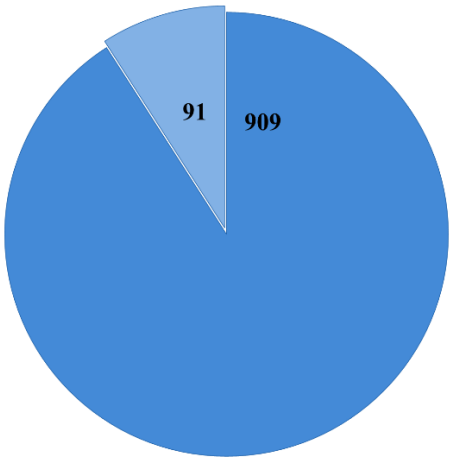

We hope you are all doing well.

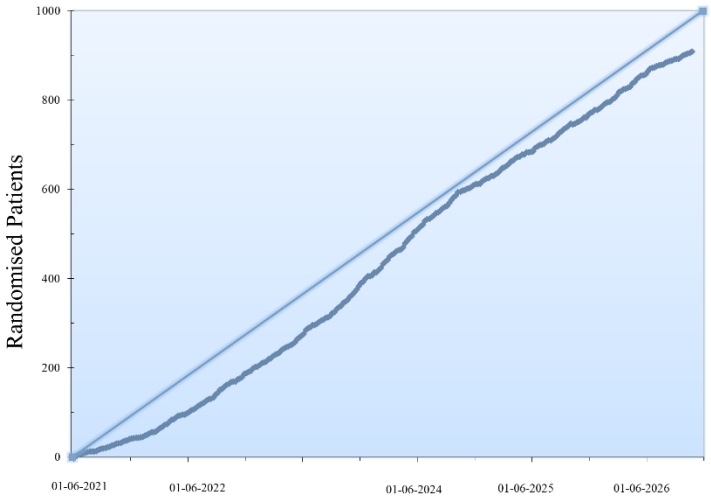

Recruitment – 91 patients to go!

We are delighted to share that we have now enrolled **909 of our planned 1,000 participants** across the international GODIF network!

We are entering the final phase of recruitment, which will close on **31 December 2026**. We therefore kindly ask you to make every effort to enrol as many eligible patients as possible before the end of the year. It is important that we get as close as possible to our planned sample size – **every patient counts!**

GODIF will be the largest placebo-controlled trial investigating de-resuscitation in the general ICU population with fluid accumulation. The results have the potential to inform future clinical practice and guidelines. This is a major achievement, and we can all be proud of the tremendous effort that has brought us this far.

Data validation

We have initiated a comprehensive data validation process covering all data entered from trial initiation until **1 October 2026**.

All sites will shortly receive an email with a list of data points that require attention. We kindly ask you to review the listed data for accuracy and provide any missing information where needed.

Our goal is to complete this first and most extensive round of data validation before the end of December 2026. A smaller follow-up validation round will take place in April 2027, covering data entered after 1 October 2026.

Trial drug

Some Danish sites have trial medication with an expiry date of **9 December 2026**. The sites concerned will receive a separate email with instructions regarding trial drug disposal and the required documentation.

Thank you all for your continued dedication and commitment to GODIF. We recognise that conducting a clinical trial alongside the demands of everyday ICU work requires considerable time and effort. We are truly grateful for everything you do to make GODIF possible.

We are almost there – let's make these final months count!
